

Ref: CMAE/MDP in Spain

To AEGG

Dear Eduardo, Board of Directors of AEGG

As part of the development of the MDP Pathway, we have been very happy with the way it has been delivered in Spanish, in Spain, over the past number of years. CMAE want to keep developing these courses, content, and presentations as part of the overall Global Certification.

CMAE as an organization is also expanding as CMAA has in the past. The Board of Directors agreed a few years back to grow alongside the support and strength of the bodies which have successfully developed the MDP program in different regions and countries and develop CMAE Regions where appropriate.

As a result, we have proudly helped develop CMAE England, CMA Ireland, CMAE Scotland and most recently, CMAE Wales.

During 2023, we started talking about a CMAE Spain Region that would work in delivering education on behalf of CMAE.

Following your decision to no longer use CME to deliver education we believe this would be the ideal opportunity to develop a Region for the benefit of all, and have worked on this since this decision.

Plans and legal work are in the final stages and CMAE Spain is now becoming a reality, and we have decided we will develop the MDP courses through this local association to better control the curriculum inside the CMAE.

Therefore the agreement of delivering MDPs will be removed from the existing contract with AEGG and CMAE Spain will deliver the MDP education.

We appreciate the effort AEGG has done in the past helping promote CMAE activities and education programs amongst its affiliates.

We hope we can count on a similar support in the future, and are very happy to provide CMAE membership and benefits, including discounts and credits, to all AEGG members.

Thank you for your understanding of this important matter.

If you need any further information, please, do not hesitate to contact me or the CMAE CEO.

Yours Sincerely

David Balden, CCM
